National Directory of Special Education Preparation Programs

A List of Colleges and Universities Offering an Organized Sequence of Specialized Preparation for Teachers and Other Personnel Engaged in the Education of Exceptional Children

Compiled by

GORDON M. HAYES

Consultant in Education of
the Deaf and Hard of Hearing

PREFACE

Because of the increase in the number of colleges and universities offering an organized sequence of specialized preparation for teachers and other personnel engaged in the education of exceptional children and the increase in the different types of offerings within these colleges and universities, the National Directory of Special Education Preparation Programs has been revised by the California State Department of Education. Information called to our attention since the distribution of the first edition has been included in this edition.

Institutions included in this list were requested to indicate if the information in the first edition was correct or, if not correct, what changes should be made. These intitutions were informed that we would assume that the information was correct if a response was not received by September 5, 1966.

In order for the California State Department of Education to keep this directory current, we would appreciate being informed of any corrections in course offerings, degrees conferred, and personnel. We would also appreciate receiving information which was not available for several colleges and universities at the time of publication. Suggestions for improvement of the list will also be welcomed.

Permission is granted to reproduce this list.

FRANCIS W. DOYLE
Deputy Superintendent of Public Instruction; Chief, Division of Special Schools and Services

CHARLES W. WATSON
Chief, Bureau for Physically Exceptional Children
